Just a word in regard to the highway account. We feel the taxpayers of the town will justify us in exceeding the appropriation when they take into consideration the amount and character of the work done for the benefit of the town.

We built 1750 feet of good Macadam road on Canal street, including a concrete bridge across Canal at the Granite State Mowing Machine shops.

Rebuilt part of stone bridge at G. A. Robertson & Co's. Graveled Canal street from Holman's shop to T. Hannon's house. Graveled Depot street above the bridge so it is in the best shape in years.

Built 450 feet of State road at L. F. Liscom's including a concrete bridge 18 feet across, with railings, one abutment, wing walls etc.

We also had a cloud burst which cost quite a sum to repair damage done thereby.

THE SELECTMEN.

The statistical report of the Reading Room and Library is appended hereto and contains nearly all that needs to be said in regard to this institution.

The saying of someone that when you want to read a novel, read an old one, is certainly not the sentiment of modern readers; indeed the novels of Dickens, Elliott, and Thackeray, which are recognized by the critics as the best ever written, do not appeal to the modern reader, he is too busy to spend several weeks in becoming minutely acquainted with a small community of people, he wants a story not a novel, something he can read when he is tired not something to tire him. People had time in the days of Richardson to follow poor Pamela as she wept her way through six volumes, indeed we are told that they read day after day and wept with her; the modern novel writer however knows his business and does as has always been done by men who deal with the public he furnishes what the market requires and indeed we are glad that the hundreds of tired men and women can have a short story quick and easy in its movement, rousing the interest by its plots and all so rapidly done that an evening suffice to read the whole.

There are many most excellent novel of this sort and it is the endeavor of your committee to place them within your reach.

We have a very great difficulty in finding good books for young people that is books that are at once wholesome and yet interesting but do our best in this direction. We are obliged beside the books above mentioned to put upon our shelves a few books of History and Biography which while not read very much is any one year yet are good for many years and of vital interest long after even "Coniston" is a forgotten name.

Hoping to serve the people of the town in a manner which shall approve itself to them we remain.

Respectfully,

BERT WILDER,
CHARLOTTE S. SLATE,
D. L. FISHER.

Statistical Report.

PARENTS AND GUARDIANS:—

We respectfully submit for your consideration the itemized report of our Treasurer for the fiscal year ending February 15, and the statistical report of the schools of the town for the year ending July 15, 1906.

Rev. William F. White, was appointed agent for the purpose of taking the enumeration of school children, which enumeration was taken in the month of September last, and his report is as follows:—

The enumeration of children of school age in the town of Hinsdale as annually required by law, reveals the following facts: Children between 5 and 16, boys, 166; girls, 198, a total of 364. Of these who may be called American, there are known to be 179; French, 100; Irish, 42; German, 6; Swede, 3; Polish, 1; of mixed nationality, 13. The total number of children of foreign extraction is 165, or 14 less than the number of American. Of the parents of these children known to be American, there are 184; Irish, 39; French, 87; German, 2; Scotch, 3; Swede, 3; Norwegian, 2; Novia Scotian, 1. The total number of parents of foreign extraction is 139. Of these parents 45 cannot read and write English, but save a few can read and write in their native language.

There are four children between 10 and 16 who cannot read and write English, and there are two who have permits to work.

There are nine children attending Brattleboro schools from the "Island." There is one child attending Dist. No. 6, in Winchester and one from Winchester is attending our High School.

Again we have to report a number of changes in our corps of teachers. The resignation of Miss Elizabeth Belleville and Miss Elfa Streeter to take up Normal work led to the appointment of Miss Nellie Redding at the Monument school and

Miss Florence Field at the North Hinsdale school. The resignation of Mr. A. N. Potter, Ph. B., principal of our grammar and sub-grammar schools, left a very important and exceedingly difficult position to fill. Your Board strenuously looked into many applications, personally interviewed the more promising, and made choice of Miss Harriet C. Moore, Mount Holyoke College '03, a teacher of experience. The resignation of Miss Margaret Wiswall, A. B., second assistant in our High School, led to a similar careful choice of Miss Bertha M. Howe, A. B., Mount Holyoke College '06.

Miss Ruth Razee, A. B., was retained another year as first assistant in the High School, during Miss King's leave of absence.

Continuing our alliance with Northfield for instruction in music and drawing, Superintendent Howard has sent us Miss Bailey, teacher of music, and Miss Hinds, teacher of drawing.

Our teachers have been working steadily along on the "Program of Studies," indicated by our State Superintendent Mr. Morrison, to which your attention was called in our last report. Nearly every purchase of new books has been from his approved list. Teachers' meetings have been held as begun last year. Mothers' meetings have also been held from time to time. The importance and value of such meetings can not be over estimated and they should continue to be sustained.

The earnest request of a considerable number of leading citizens and patrons was considered sufficient authority for spending an unusual sum in filling and varnishing floors and desks, and for substituting more sanitary drinking fountains for the unsanitary uncovered pails so long in use. In this connection be it noted that our schools have been unusually free from sickness and contagious diseases.

It was with pleasure we were able to call your attention last year to the goodly number of graduates from our schools who have recently entered upon advance work in our higher

institutions of learning. This number has been increased during the year and we have representatives who have pushed on into our state Normal school, University of Vermont, Yale, and Harvard. In our on-coming classes we have several aspiring and promising students who are looking beyond our own schools with a splendid vision. May the vision be realized!

While taking pleasure and pride in our best pupils, we with our teachers have endeavored to give our best thought, effort and patience to the less fortunate pupils that they may obtain as good a fit as possible for their life work.

We are always open to any suggestions and advice.

Respectfully submitted,

| | | |
